

3-point automatic

PART NO. SYSTEM

SAMPLE PART NO.

TPA262845 - EC - 012

The ABI Ultima can be used for any aviation application. Push button restraints have become especially popular in the business jet and general aviation marketplace. Please check the Reel Selection page in this catalog to find the proper reel.

A metal housing is available on this model to allow for decorative plating finishes. Contact ABI for additional information about this restraint system and available custom plating options.
